Quality Engineer

Dedicated and focused multi-tasker with ability to manage complicated projects. Coordination and management of resources from inception to release to maintenance within the complete Software Development Life Cycle (SDLC). Adept in the creation & maintenance of test procedures, test cases, and test plans. Self-motivated, independent, detail oriented, & organized approach to achieving success for clients and teammates.

PROFESSIONAL EXPERIENCE

Quality Engineer

2021 – 2023

Detroit Labs, Detroit, MI

- Tested and participated in the development of an online fully customizable ordering system for web, enabling a client to have a full order system experience right out of the box
- Worked to test and develop an innovative home purchasing experience on web/desktop and mobile for one of the country's largest mortgage lenders, allowing client to explore a new online space
- Led the design and creation of test cases for a business-facing project that was being transitioned back to internal client development, creating a smooth handoff experience for the client
- Tested customer facing iOS & Android apps for a major public utility that has a half million individual users, providing a stable mobile experience during storm emergencies
- Founded and participated in a program in selecting and maintaining test devices for development work, keeping the company on the cutting edge of current mobile products
- Created test cases, test strategies, and test plans based on given requirements and/or exploratory testing for multiple types of projects. Conducted many types of testing, including: functional, integration, regression, accessibility, security, smoke, UAT, & sanity
- Identified, documented, and tracked bugs/issues/defects with detailed and comprehensive reports that included steps to reproduce as well as visual documentation when applicable

Junior Quality Engineer

Detroit Labs, Detroit, MI

2020 – 2021

- Provided continuous feedback from a Quality perspective while pairing with team members across disciplines, including development, design, and product ownership
- Onboarded remotely for individualized Quality apprenticeship as part of a career change, building on previous technical training
- Paired with Senior Quality Engineers on various client projects; working independently after six months

Professional Musician - Trombone

Detroit, MI

2002 – Current

- Create/oversee multiple groups/projects for performance, recording, arranging, & scheduling
- Networking with large community of corporate and independent business professionals
- Track/maintain detailed business & financial reports (income, expenses, assets, & liabilities)
- Performed/recorded with Aretha Franklin, Hugh Jackman, Eminem, Mayer Hawthorne, & many, many others

Technical Editor

2006 – 2007

All Media Guide, Ann Arbor, MI

- Maintained and processed metadata from various departments (music, film, multimedia)
- Formatted/integrated writer submitted data for database, including troubleshooting
- Reviewed and edited writer's content with regards to style and grammar
